The screenshot shows the 'Research Portfolio Online Reporting Tools (RePORT)' interface. A search for 'HOWARD' has been performed, resulting in 5 records. The records are listed in a table with radio buttons for selection. The record for 'HOWARD UNIVERSITY - WASHINGTON, DC' is selected, indicated by a red circle around the radio button. To the right of the list is a filter panel with dropdown menus for 'Location', 'Professional District', 'Organization Type', and 'Organization'. The 'Organization' dropdown is set to 'HOWARD'. Below the dropdowns are radio buttons for 'Contains' and 'Begins with', with 'Contains' selected. A 'SUBMIT QUERY' button is visible at the bottom of the filter panel. The top of the browser window shows the URL 'report.nih.gov' and a 'FROZEN' status indicator.

- 6) Click **submit query**
- 7) Review the total Dollar amount
(*\$10,147,287 in this example*)
- 8) Repeat for **2022** and **2021**
- 9) **To be eligible for this call for proposal, your institution needs to receive an average of less than \$50 million per year total costs of NIH support for the past three fiscal years (2021, 2022, 2023).**
(*in this example: an applicant from **Howard University** is eligible to apply*)

Note: Although this list can be sorted by the amount of funding each organization receives, these data should not be interpreted as a ranking of institutions by NIH. NIH's use of [multiple principal investigator](#) awards makes calculations of the total funding received by individual departments impractical and there are multiple ways in which the funding data can be aggregated across universities' schools and departments that can alter the ordering of institutions.

Prior to 2011, NIH reported the dollar amount of administrative supplements but, because they are supplements to existing projects, did not count these supplements as "awards". As a result, every year there may have been a small number of organizations that received NIH funding but appear in this table as having "0" (zero) awards.

These data do not include projects funded by the American Recovery and Reinvestment Act of 2009. For a list of those projects, please visit <https://report.nih.gov/recovery>.

For consistency in reporting on past fiscal years, this site uses frozen information for past fiscal years, and this may differ from current information displayed on [RePORTER](#). Upon completion of each fiscal year, research and development contract records are integrated with frozen grant records and posted in December. Institutions may review their grant records and [request updates](#).
